

We follow in Jesus' footsteps as we care for each other when we work, play and pray.

Policy on Homework

At St. Joseph's Catholic Primary School we recognise that all children have rights as outlined in the UN Convention. As duty bearers, we have the responsibility to respect these rights and are committed to supporting our children through their education and to ensure that they are rights-holders.

We aim to provide our pupils with their 'right to 'get information that is important to your well-being from radio, newspaper, books, computers and other sources. Adults should make sure that the information you are getting is not harmful and help you find and understand the information you need' as stated in Article 17

The right to 'a good quality education. You should be encouraged to go to school to the highest level you can' as stated in Article 28

The right to 'be an education that helps you use and develop your talents and abilities. It should also help you learn to live peacefully, protect the environment and respect other people' as stated in Article 29.

1 Introduction

1.1 Homework is anything children do outside the normal school day that contributes to their learning, in response to guidance from the school. Homework encompasses a whole variety of activities instigated by teachers and parents/carers to support the children's learning. For example, parents or carers who spend time reading stories to their children before bedtime are helping with homework.

2 Rationale for homework

2.1 Homework is a very important part of a child's education, and can add much to a child's development. We recognise that the educational experience that any school by itself can provide is limited by the time and resources available; children can therefore benefit greatly from the complementary learning that they do at home. Indeed, we see homework as an important example of cooperation between teachers and parents/carers. One of the aims of our teaching is for children to develop as independent learners, and we believe that doing homework is one of the main ways in which children can acquire the skill of independent learning.

2.2 Homework plays a positive role in raising a child's level of attainment. However, we also acknowledge the important role of play and free time in a child's growth and development. While homework is important, it should not prevent children from taking part in the activities of various out-of-school clubs and of other organisations that play an important part in the lives of our pupils. We are well aware that children spend more time at home than at school, and we believe that they develop their interests and skills to the full only when parents/carers encourage them to make maximum use of the opportunities available outside school.

3 Aims and objectives

3.1 The aims and objectives of homework are:

- to enable pupils to make maximum progress in their academic and social development;
- to help pupils develop the skills of an independent learner;
- to promote cooperation between home and school in supporting each child's learning;
- to enable all aspects of the curriculum to be covered in sufficient depth;
- to provide educational experiences not possible in school;
- to consolidate and reinforce the learning done in school, and to allow children to practice skills taught in lessons;
- to help children develop good work habits for the future.

4 Types of homework

4.1 Staff and pupils regard homework as an integral part of the curriculum – it is planned and prepared alongside all other programmes of learning.

4.2 We set a variety of homework activities. In the Foundation Stage and at Key Stage 1, we give children books to take home and read with their parents or carers. We give guidance to parents and carers on achieving the maximum benefit from this time spent reading with their child. We also ask Key Stage 1 children to learn spellings or mathematical tables as part of their homework. Sometimes, we ask children to talk about a topic at home prior to studying it in school. For example, in the history topic on toys, we ask children to find out what toys were popular when their grandparents were young, and, if possible, to bring examples into school to show the other children. Sometimes, we ask children to find and collect things that we then use in science lessons, and occasionally we ask children to take home work that they have started in school, when we believe that they could benefit from spending further time on it. When we ask children to study a topic, or to research a particular subject, we encourage them to use not only the school library but also the local library, as well as the Internet.

- 4.3 At Key Stage 2, we continue to give children the sort of homework activities outlined in paragraph 4.2, but we expect them to do more tasks independently. We set literacy and numeracy homework routinely each week, and we expect the children to consolidate and reinforce the learning done in school through practice at home. We also set homework as a means of helping the children to revise for examinations, as well as to ensure that prior learning has been understood.
- 4.4 Homework is marked according to the general school marking policy. Homework completed well is acknowledged and praised. There may be issues arising from the work, which the teacher will follow up in lesson time.
- 4.5 We recognise that children have individual learning styles, which means that some tasks can be completed in a number of different ways, while others demand a particular approach.

5 Amount of homework

- 5.1 We increase the amount of homework that we give the children as they move through the school:

Foundation – Homework is based mainly on reading activities throughout the year. Children receive sound sheets to reinforce school work until all 42 sounds are covered. They are given a reading book/ ditty which may include high frequency words to share and practice each week.

Children in year 1 and year 2 should spend approximately one hour per week on homework which includes reading with an adult.

Children in year 3 and year 4 should spend approximately 1 hour and 30 minutes per week on English (reading, writing, spelling ...) and Maths and other topic related work.

Children in year 5 and year 6 should spend approximately 30 minutes per night on a range of activities across all aspects of the curriculum.

All children from Foundation upwards will be given a reading record which staff, parents, carers and children can record the books they have read and note any comments regarding their reading, parents are asked to acknowledge that they have heard their child read.

Pupils in Years 1 and 2 have follow up Maths work related to the Learning Objectives for the week.

Foundation, Year 1 and Year 2 may also have vocabulary words and sounds to be learnt.

Year 3 to Year 6 have weekly spellings and Maths homework to be learnt.

- 5.2 As they move through the school, we increase the amount of homework that we give the children.

6 Inclusion and homework

- 6.1 We set homework for all children as a normal part of school life. We ensure that all tasks set are appropriate to the ability of the child, and we endeavour to adapt any task set so that all children can contribute in a positive way. When setting homework to pupils who are named on the register of special needs, we refer to those pupils' Education Health Care Plan (EHCPs). We value and celebrate the cultural diversity of our pupils and their families, and we appreciate the enrichment that this brings.

7 The role of parents and carers

- 7.1 Parents and carers have a vital role to play in their child's education, and homework is an important part of this process. We ask parents and carers to encourage their child to complete the homework tasks that are set. We invite them to help their children as and when they feel it to be necessary, and to provide them with the sort of environment that allows children to do their best. Parents and carers can support their child by providing a good working space at home, by enabling their child to visit the library regularly, and by discussing the work that their child is doing.
- 7.2 If parents and carers have any questions about homework, they should, in the first instance, contact the child's class teacher. If their questions are of a more general nature, they should contact the principal. Finally, if they wish to make a complaint about the school homework policy, or the way in which it is implemented, parents or carers should contact the Academy Committee via the complaints procedure.

8 Use of ICT

- 8.1 The use of ICT and the Internet has made a significant contribution to the amount of reference material available at home, and the ease and speed with which it can be accessed. However, our teachers expect their pupils to produce their own work, perhaps by editing something they have found, or by expressing it in their own words. The children are not achieving anything worthwhile by merely downloading and printing out something that has been written by somebody else.
- 8.2 There are many websites containing highly educational material which can have a powerful effect on children's learning. Our school website provides links to the sites which will best support the children's learning. Parents or carers are advised always to supervise their child's access to the Internet.

9 Monitoring and review

- 9.2 It is the responsibility of our Academy Committee to agree and then monitor the school homework policy. This is done by the committee of the Academy Committee that deals with curriculum issues. Parents and carers complete a questionnaire each year, and during the school's Ofsted inspection, and the Academy Committee pays careful consideration to any concern

that is raised by any parent. The Academy Committee may, at any time, request from the Principal a report on the way in which homework is organised in school.

9.3 This policy will be reviewed in two years, or earlier if necessary.
